DATE: March 29, 2004

SUBJECT: Propel Disable Kit - 98510026

RATING: **DIRECTIVE**
(Action is required)

ALERT
(Potential Problem)

INFORMATION
(Action is optional)

PRODUCT IMPROVEMENT
(Enhance Product)

MACHINE MODEL(S): NETP Chemical Tie Plugger

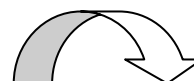

SERIAL NUMBER(S): 510001 - 510027

SUMMARY: Installation of Propel Disable Kit to prevent accidental machine movement.

OPERATIONAL IMPACT: This kit adds a relay, CR33, to the propelling foot pedal circuit to interrupt the power to the Propel Valve when the Electrical Interlock Button is pushed in. This will prevent the Propel Valve from being energized and will help prevent movement of the machine if the parking brake does not hold properly.

ACTION: The kit consists of a **DPDT Relay – p/n 5196101**, a **Relay Socket – p/n 5155281**, a **Relay Mounting Rail – p/n 81941160**, wire, hardware and installation instructions. This kit can be installed with basic hand tools in about an hour. See the installation instructions on Page 2.

WARRANTY: None
